

Expert Care from Our Diabetes Nurse Educator

Amanda, our experienced Registered Nurse and Credentialed Diabetes Educator, bringing expertise from Sydney's leading diabetes services to our community.

Continuous Glucose Monitoring

Experience continuous diabetes monitoring with our Freestyle Libre2 sensor. This discreet device attaches to your upper arm for two weeks, providing instant glucose readings every minute with customisable safety alerts. Our Credentialed Diabetes Educator provides professional support and guidance throughout your monitoring period.

Service Costs

This service is completely free and bulk billed for patients who use insulin and are referred to the Diabetes Educator by a GP under a Team Care Arrangement. For those not on insulin or without a Team Care Arrangement, we offer sensor attachment for \$30 when you purchase your own Libre2 sensor.

Real-time glucose monitoring

Instant feedback about your diabetes management

Enhanced safety with customisable alerts

Professional support and interpretation

Improved understanding of your diabetes
